DOD Secret Clearance, (Issued 2011)

TECHNICAL SKILLS

- HTML
- CSS
- Bootstrap
- Javascript
- JQuery
- Java
- MySQL
- GitHub
- Spring Boot

My Projects

UnderDogs Adlister: (Feb. 2019)

Fully functional job board for unemployed superheroes. (HTML, CSS, Java, MySQL)

BattleGrounds Coffee: (Dec. 2018)

Javascript app that searches and refines results using alt-text. (HTML, CSS, Javascript, JQuery)

Initiative Tracker: (Nov. 2018)

Dynamic table that creates and sorts rows based on input and dice rolls. (HTML, CSS, Javascript)

I truly enjoy creating client-facing solutions to real-world problems using my diverse skill set. My background in behavioral health positions me to excel in hybrid roles that rely on both task-oriented coding and cultivating relationships. I am uniquely equipped to identify client needs and effectively craft clear and concise user interfaces in all of my projects.

MILITARY HISTORY

United States Army

Behavioral Health Specialist | 2009 - 2013

I provided counseling and training to soldiers and leadership consultations. While deployed to Afghanistan, I delivered the keynote speech at a medical conference and designed my own training program for traumatic event management. I received an honorable discharge and left to pursue my education.

PROFESSIONAL HISTORY

Idea Public Schools

English Teacher Pre-AP | 2017 - 2018

Facilitated interactive literary discussions with classes of up to 35 students. Monitored individual learning goals for 125 students concurrently. Demonstrated consistent performance growth on state tests. Sponsored the Creative Writing Club and mentored young writers in their genres.

iLearning Hotspot Facilitator| 2016 - 2017

Monitored and adjusted individual pathway goals for 197 students. Promoted student success by tutoring and discussing relevant performance data. Achieved the 1st and 2nd place rankings at the district level for student performance in Q3.

Texas A&M University-Kingsville

Tutor/Research Assistant| 2013 - 2014

Provided supplemental instruction for individuals and groups in Statistics for Psych. Designed PowerPoint slides used to conduct research under a department grant. Collected survey results and compiled data into a spreadsheet for analysis.
